

SENATE ORDER ENTITY CONTRACTS

February 2018

Pursuant to the Senate Order on entity contracts the following table sets out contracts entered into by the Australian Nuclear Science and Technology Organisation Group, which provide for a consideration to the value of \$100,000 or more (GST inclusive) and which:

1. have not been fully performed as at 31 December 2017; or
2. have been entered into during the 12 months prior to 31 December 2017.

Most of the contracts listed contain confidentiality provisions of a general nature that are designed to protect the confidential information of the parties that may be obtained or generated in carrying out the contract. The reasons for including such clauses include:

1. ordinary commercial prudence that requires protection of trade secrets, proprietary information and the like; and/or
2. protection of other Commonwealth material and personal information.

Given that ANSTO operates on a commercial basis, commercially sensitive information for contracts included in this report has been omitted. Some contracts have not been included in the table if disclosure would be contrary to the public interest, contrary to statutory secrecy provisions, or contrary to the Privacy Act.

Assurance has been provided by the entity head that, for the contracts listed, they do not contain confidentiality provisions which were, considered in the full circumstances, inappropriate.

The value is in AUD unless otherwise stated.

Estimated cost of compiling this order: \$6,805. The method used to estimate the cost was applying salary and on-costs to the number of hours spent by staff across various classifications to collect and analyse the information.

Contractor / Other Party	Subject Matter	Amount of consideration (incl GST) \$	Start Date	End Date	Whether Contract Contains Provisions Requiring the Parties to Maintain Confidentiality of any of its Provisions (Y/N)	Reason	Whether the Contract Contains 'Other Requirements of Confidentiality' (Y/N)	Reason
