

SENATE ORDER ENTITY CONTRACTS

AUGUST 2017

Pursuant to the Senate Order on entity contracts the following table sets out contracts entered into by the Australian Nuclear Science and Technology Organisation Group, which provide for a consideration to the value of \$100,000 or more (GST inclusive) and which:

1. have not been fully performed as at 30 June 2017; or
2. have been entered into during the 12 months prior to 30 June 2017.

Most of the contracts listed contain confidentiality provisions of a general nature that are designed to protect the confidential information of the parties that may be obtained or generated in carrying out the contract. The reasons for including such clauses include:

1. ordinary commercial prudence that requires protection of trade secrets, proprietary information and the like; and/or
2. protection of other Commonwealth material and personal information.

It is to be noted that ANSTO's listing is not yet complete due to technical delays associated with major upgrades to ANSTO's financial management and enterprise software, which coincided with the relevant reporting period. In addition, given that ANSTO operates on a commercial basis, commercially sensitive information for contracts included in this report has been omitted. Finally, contracts have not been included in the table if disclosure would be disclosure would be contrary to the public interest, contrary to statutory secrecy provisions, contrary to the Privacy Act, or would disclose commercially sensitive information.

The value is in AUD unless otherwise stated.

Estimated cost of compiling this order: \$13,984.

Method used to estimate the cost: Applying salary and on-costs to the number of hours spent by staff across various classifications to collect and analyse the information.
